Sealing  Solutions

RAMCO® PTFE FLANGE INSULATION GASKET KIT

RAMCO® Sealing Solutions manufactures the **RAMCO® PTFE** Gasket Kit which has an outstanding chemical resistance and temperature range, -100°F(-73°C) to +400°F(204°C). This makes the **RAMCO® PTFE** gasket suitable for applications in Cryogenic, Petrochemical, Pharmaceutical, Semiconductor Manufacturing and Food and Beverage Manufacturing or lined piping is installed.

The **RAMCO® PTFE** gasket is manufactured from 1/8" ASTM certified extruded Polytetrafluoroethylene for ½"-24" nominal pipe sizes to comply with all International pipe classification in Full Face (E) or Raised Faced (F). The **RAMCO® PTFE** Gasket is available as a gasket only or a complete Insulation Kit with all components necessary to isolate a flange ensuring proper flange sealing and cathodic protection.

The **RAMCO PTFE** Flange Insulation Gasket Kit consists of (1) PTFE gasket as well as (2) PTFE Isolating washers, (2) SAE zinc plated steel backup washers and (1) PTFE sleeve per bolt hole.

Ramco® Sealing Solutions products are proudly manufactured in the USA and are fabricated from the highest quality materials to exceed industry standards.
